EXPERIENCE

Co-Founder

Studio1

📅 09/2024 📍 Remote

Studio1 is a developer advocacy and technical content agency focused on AI, DevTools, and agent platforms.

- Led developer advocacy initiatives for 30+ companies across AI, DevTools, and SaaS.
- Worked with YC-backed startups, NASDAQ-listed companies, and enterprise teams.
- Key partners include BrightData, Nebius, Permit.io, Apify, Arcjet, LambdaTest, Tensorlake, Tolgee, Webcrumbs, ForgeCode, Entelligence, CopilotKit, CodeRabbit.
- Scaled Studio1 to \$100K+ revenue in the first year with a distributed engineering team.
- Built agentic demos, SDK guides, and example repos to accelerate developer onboarding.
- Improved DX through documentation systems, tutorials, onboarding flows, and SEO for developer intent.
- Helped multiple products rank Top 3 on Product Hunt through launch-ready demos and tutorials.
- Built and maintained a GitHub examples repository with 9K+ stars and 85+ demos, fully organic.
- Supported open-source projects, hackathons, and community programs to drive adoption.

Developer Advocate

Pieces for Developers

📅 02/2024 - 10/2024

Developer Advocate focused on community engagement and product adoption

- Developed a CLI tool 'pieces-cli' using the Pieces SDK
- Contributed to Pieces becoming the Product Hunt Product of the Day .(We received 900+ upvotes, 250+ feedbacks, 8k+ website visits, 1k+ downloads, and also became #4 for the week.)
- Created a 'Pieces x Nextjs Chatbot' leveraging the Pieces SDK
- Authored educational articles detailing the development process and usage of these tools
- Improved the SDK documentationI created Glossary and improved the SDK documentations to improve Developer Experience to make it more accessible and user-friendly
- Maintained and contributed to their open-source project
- Hosted numerous sessions and events to engage with the developer community
